

# Jivass Technologies

BUILDING BRIDGES WITH WEB SOLUTIONS

## Who We Are

Jivass Technologies LLP is a start up company empowering businesses with its innovative, cutting-edge solutions. We provide web workflow solutions and a web platform for IoT devices.

## Our Expertise

Our team of web developers and engineers have extensive experience in creating custom websites and IoT based applications for a variety of Industries.

## Our Services

### CORPORATE WEBSITES

Design and Host Websites - Template, Identity, Branding, Design, Content Management System

### WORKFLOW SOLUTIONS

Business Workflows for Process Digitalizations, Asset tracking, others

### RESEARCH BASED PROTOTYPES

Design, Integrate, Shape Data, Field Test, Prototype, Role-based access

## Our Product Offering

### LIOMICHLA

### IoT Web Platform for Devices

## Target Domains

IOT Dashboard

Sports Management

Finance & Commerce

Energy & Utilities

Clinic & Healthcare

Maps & Logistics

# Providing Solutions to Help Business Grow

## Dashboard Features

Web-based Dashboards

Escalation Matrix

Backup/Restore

Customised warnings and alerts

Mobile-Friendly

Analytics

Report Generation

Configurations and Notifications

Real-Time Updates

Feature Access Control

Role based authentication

Charts and Visualization

## OUR PHILOSOPHY

Let us grow together

# GYRFALCON™ Devices

We provide customised sensor based IoT devices with wide range of applications in Logistics & Transport, Agriculture, Healthcare and Energy utility devices such as UPS/Genset

## Sensor Gateway

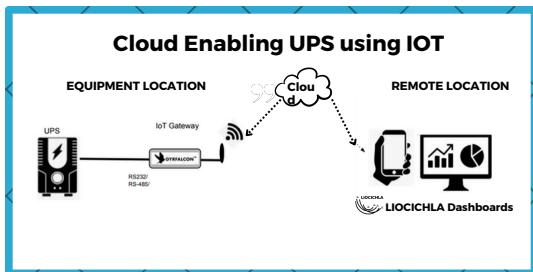

Sensor Gateway for sensing temperature, humidity, pressure and other customisable sensor configurations. Support for configurable data sampling rates and alerts.

## Asset Tracker

Asset Tracker for outdoor tracking and management of assets. Has support for geofencing and configurable alerts.

## UPS Monitoring

The GYRFALCON™ IoT UPS Monitoring Gateway integrates with UPS appliances to provide real time information about UPS status, battery health, load levels, and overall UPS performance, enabling the conversion to Smart UPS

## Features

01

Immobilization

02

Fuel monitoring

03

Actuator support

04

Tamper proof

05

Vibration monitoring

06

Motion detection

## Specifications

Connectivity

GSM/WiFi/Bluetooth

Location

GNSS (with IRNSS support)

Interface

RS232/485/422

Enclosure

Thermal  
Resistant/Polycarbonate

Data Logging

when no GSM -Up to 4  
months (based on  
configuration)

Security

End to End Data  
Encryption

01

### Our Vision

Forging a lasting bond of trust with our clients and supporting them in their digital aspirations.

02

### Our Mission

Enabling our clients with high quality, user friendly web design going from research and development to design and implementation.

03

### Our Values

Continuous skilling, Positive Workforce, Customer Focus, Delivering Values

# LIOCICHLA IoT Platform

## Dashboard Solutions

We provide advanced IoT-driven custom solutions that are highly configurable, featuring both web and mobile dashboard options, domain-specific customised solutions, and an extensive array of features, such as role based multi access, device management, configurations, reports and alerts
